

GM 14 SLIDING GATE OPERATOR

The GM 14 sliding gate operators are used to drive sliding gates for residential uses. The operators can be fitted with gear wheel or chain wheel according to your needs, and featured with powerful starting strength, capable of overwork at short time. In case of power failure, an emergency release key allows operate gate manually.

Advanced Features

- ◆ Gear-drive or chain-drive is optional
- ◆ Self-locking electromechanical gear motor
- ◆ Safety obstruction reverse
- ◆ Overheat & Overload dual protection
- ◆ Emergency release key in case of power failure
- ◆ Wiring terminals for photocells, loop detector, IC card reader, alarm lamp and remote controller, etc.
- ◆ DC12V models ensure continuous working in case of power failure.

Model	GM 14
Power supply	220-240V, 50/60Hz
Motor	AC motor
Motor speed	1400 rpm
Motor power	160 W
Output torque	14 Nm
Max. Gate weight	350 kg
Opening speed	14 m/min
Reduction ratio	1:30
Working temperature	-40°C to 70°C
Limit switch	Magnetic switch
Driver type	Gear wheel 24T
